TechArch Program Guide 2025

Empowering Global Youth with Tech Skills

Led by Walter Koech & Abdi Hirisi, CEOs

Registered in Minnesota, USA | Nairobi, Kenya

1 About TechArch

TechArch is a global platform empowering youth with tech skills for worldwide opportunities, with a focus on East Africa. Registered in Minnesota, USA, and operating from Nairobi, Kenya, we are led by CEOs Walter Koech and Abdi Hirisi.

2 Our Mission

We provide free, industry-recognized training in coding, AI, data annotation, and agri-tech to youth aged 18–35, fostering global careers.

3 Training Programs

- **Python Coding**: Build apps and AI models (3 months, beginner).

- **Data Annotation**: Label data for AI, enabling remote jobs (2 months, beginner).

- **Agri-Tech Apps**: Innovate farming with tech, tailored for East Africa (4 months, intermediate).

- **Digital Marketing**: Master SEO and social media (3 months, beginner).

4 Certifications

Earn globally recognized certificates from partners like CompTIA and Cisco, boosting your career prospects.

5 Job Opportunities

- **Data Annotator (Remote)**: Work with AI firms, $5–$10/hour.

- **Junior Coder (Nairobi)**: Build agri-tech apps, KES 50,000/month.

- **AI Specialist (Remote)**: Develop AI models, competitive salary.

- **UX Designer (Remote)**: Create user-friendly apps.

6 Success Stories

- **Amina, Mombasa**: Landed a remote data annotation job.

- **Otieno, Kisii**: Started an agri-tech app, employing 5 youth.

- **Fatuma, Dar es Salaam**: Became a coder on Upwork.

- **James, Kampala**: Secured a digital marketing job in Kigali.
